

The Vikings travelled huge distances in boats called longships. Study the shapes, proportions and design features of these longships.

Try to make a model of one of these using materials that you may have such as paper or empty boxes.

Study different Viking helmets. Make your own using thin card from cereal box packaging.

## Year 4 Summer Learning Projects

**Let's travel back to the time of the Vikings.**

**Here are some ideas about what you might do to find out about this civilisation.**

Design and make your own Viking board game.

Study different Viking jewellery by making detailed sketches.

Design your own Viking jewellery.

Can you use tinfoil, cardboard and an embossing technique to create your design?

## Geography

Where did the Vikings come from?

Here, you could find out what continent they came from, what the climate is like there, what the major cities are.

How are the countries different now from the times of the Vikings?

## Writing

What was Viking writing called? Can you write messages using this?

Find out about Viking life and write a day in the style of a diary.

Write a Viking story about an event you have found out about.

## History

By now, you have looked at different times in history. Can you make a timeline that shows when these civilisations and events occurred?

Ancient Egypt → Romans invaded Britain → Vikings invaded Britain → Tudors → Victorians → World War 2 → Moon landing

Try to add years and perhaps an image to show an important event that happened during these times.

Please remember to keep a diary, read daily and do Mathletics.
