

Clara Grant Children and Young People Unable to Attend
School due to Medical Needs Policy

April 2024

All children, regardless of circumstance or setting, should expect to receive the same high standard of education.

This policy aims to ensure that: Suitable education is arranged for pupils on roll who cannot attend school due to health needs Pupils, staff and parents understand what the school is responsible for when this education is being provided by the local authority. Children who are unable to attend school because of their medical needs may include those with:

- Physical health issues;
- Physical injuries;
- Mental health problems, including anxiety issues;
- Emotional difficulties or school refusal;
- Progressive conditions;
- Terminal illnesses;
- Chronic illnesses.

This policy reflects the requirements of the Education Act 1996, Equality Act 2010, Data Protection Act 2018, 'Arranging education for children who cannot attend school because of health needs' (DfE 2023) and 'Supporting pupils at school with medical conditions' (DfE 2015).

Children who are unable to attend mainstream education for health reasons may attend any of the following:

- Hospital school: a special school within a hospital setting where education is provided to give continuity whilst the child is receiving treatment.
- Home tuition: a service that acts as a communication channel between schools and pupils on occasions where pupils are too ill to attend school and are receiving specialist medical treatment.
- Medical PRUs: these are LA establishments that provide education for children unable to attend their registered school due to their medical need.

Parents/carers are responsible for informing their child's school of any new diagnosis, or changes to their child's medical condition, as soon as possible. Once a child is offered a place at The Clara Grant Primary School, the earlier the parent can inform the school the easier it is to prepare to meet the needs of the pupil in their learning environment.

Healthcare providers have statutory obligations to support Local Authorities in meeting the needs of children with health needs, which include:

- Helping parents/carers/teachers etc to understand the child's health needs/disability;
- Provide access to any specialist advice services required;

- Advise on any matters such as access, provision of equipment and training in medical procedure.

Health services will support our school by supporting with healthcare plans when requested to by education settings and support the school to undertake a risk assessment and identify the level of daily care required and who can provide that care. Tower Hamlets Local Authority has a duty to promote cooperation between relevant partners – such as governing bodies, clinical commissioning groups and NHS England – with a view to improving the wellbeing of children with regard to their physical and mental health, and their education, training and recreation. Tower Hamlets Local Authority has a named officer who is responsible for the education of children with health needs and ensure parents know who the named officer is. The named officer should work closely with:

- schools
- relevant agencies
- medical professionals
- parents or carers

The Clara Grant Primary School has a duty (regulation 12(1)(a) of the Education (Pupil Registration) (England) Regulations 2006 to provide to Tower Hamlets Local Authority, at agreed intervals, the full name and address of any pupils of compulsory school age who are not attending school regularly (including due to their health needs).

In the case of a looked after child, Tower Hamlets Local Authority is responsible for safeguarding the child's welfare and education. Where a looked-after child (LAC) is likely to be placed in alternative provision, the DSL should contact the local authority's Virtual School Head (VSH) as soon as possible. The VSH, working with the DSL and others, should consider what support a child needs to overcome barriers to attainment and achievement, giving equal consideration to the pastoral needs of the child, to ensure an appropriate AP placement can be made. Where relevant, The Clara Grant Primary School will also engage with a child's social worker, foster carers, or children's home workers.

The Clara Grant Primary School aims to ensure that all pupils who are unable to attend school due to medical needs continue to have access to as much education, including physical education, and as many school trips as their medical condition allows.

Due to the nature of their health needs, however, some pupils may be admitted to hospital or placed in alternative forms of education provision and unable to attend school as normal. We recognise that, whenever possible, pupils should receive their education within their school and the aim of the provision will be to help reintegrate pupils back into school as soon as they are well enough.

We understand that we have a continuing role in a pupil's education whilst they are not attending the school and will work with the LA, healthcare partners and families to ensure that all pupils with medical needs receive the right level of support to enable them to maintain links with the school.

- DfE (2022) 'Working together to improve school attendance'

This policy operates in conjunction with the following school or trust policies:

- Attendance and Absence Policy
- Child Protection and Safeguarding Policy
- Data Protection Policy
- Records Management Policy
- Special Educational Needs and Disabilities (SEND) Policy

For the purpose of this policy, "school-based support" in relation to supporting pupils with additional health needs may include:

- Day-to-day support offered at school where the pupil is able to attend as normal.
- Support given to pupils who are absent from school because of illness for a period of less than 15 school days, whether consecutive or cumulative.
- Any educational or extra-curricular provision as requested by the LA as part of its arrangements for pupils who cannot attend school full-time, e.g. where the pupil attends school part-time as an arranged part of their full-time education provision.
- As part of their reintegration into normal school attendance following a period of absence or part-time attendance due to health needs.

"LA-arranged education", for the purpose of this policy, is defined as education provision arranged by the LA where the pupil cannot attend school full time due to medical reasons for a period of 15 school days or more, whether consecutive or cumulative.

4. Roles and responsibilities

The governing board will be responsible for:

- Ensuring there is a schedule of regular updates on the arrangements made for pupils who cannot attend the school due to their medical needs.
- Ensuring the roles and responsibilities of those involved in any school-based arrangements to support the needs of pupils are clear and understood by all.
- Ensuring robust systems are in place for dealing with health emergencies and critical incidents where a pupil with health needs is able to, or partially able to, attend school and/or extra-curricular activities.
- Ensuring staff with responsibility for supporting pupils with additional health needs are appropriately trained.
- Approving and reviewing this policy

The headteacher will be responsible for:

- Working with the governing board to ensure compliance with the relevant statutory duties when supporting pupils with additional health needs.

- Working collaboratively with the LA, parents and other professionals, as necessary, to develop any school-based arrangements to meet the needs of pupils.
- Ensuring any school-based arrangements put in place to meet pupils' health needs are fully understood by all those involved and acted upon.
- Appointing a named member of staff who is responsible for pupils with additional health needs and liaises with parents, pupils, the LA, key workers and others involved in the pupil's care.
- Ensuring any school-based support put in place focuses on and meets the needs of individual pupils.
- Arranging appropriate training for staff with responsibility for supporting pupils with additional health needs who are attending school, or attend school part-time.
- Providing teachers who support pupils with additional health needs with suitable information relating to a pupil's health condition and the possible effect the condition and/or medication taken has on the pupil.
- Providing annual reports to the governing board on the effectiveness of any school-based arrangements in place to meet the needs of pupils of pupils who cannot attend school due to health needs.
- Notifying the LA when a pupil is likely to be away from the school for a significant period of time due to their health needs.

The named member of staff will be responsible for:

- The management of any pupils registered at the school who are unable to fully attend school because of their health needs.
- Actively monitoring pupil progress and reintegration into school.
- Supplying any LA-arranged education providers with information about pupils' capabilities, progress and outcomes.
- Liaising with the headteacher, LA-arranged education providers, and parents to help determine pupils' programmes of study whilst they are absent from school, where necessary.
- Keeping pupils who are being educated by LA-arranged education providers informed about school events and encouraging communication with their peers.
- Providing a link between pupils and their parents, the school, and LA where necessary.

Staff will be responsible for:

- Understanding confidentiality in respect of pupils' health needs.
- Designing school-based activities, including lessons, in a way that allows pupils with additional health needs to participate fully and ensuring pupils are not excluded from activities that they wish to take part in without a clear evidence-based reason.
- Understanding their role in any school-based support for pupils with additional health needs and ensuring they attend the required training.
- Ensuring they are aware of the needs of their pupils through the appropriate and lawful sharing of individual pupils' health needs.
- Keeping parents informed of how their child's health needs are affecting them whilst in school-based education.

Parents will be expected to:

- Ensure, where school-based provision is in place, the regular and punctual attendance of their child at the school where possible.
- Work in partnership with the school, LA and any LA-arranged provision to ensure the best possible outcomes for their child.
Notify the school, or the relevant education provider, of the reason for any of their child's absences without delay.
- Provide the school with sufficient and up-to-date information about their child's medical needs.
- Attend meetings to discuss how any school-based support, including reintegration, for their child should be planned.

5. Managing absence

Parents will be required to contact the school on the first day their child is unable to attend due to illness.

Absences due to illness will be authorised unless the school has genuine cause for concern about the authenticity of the illness.

The school will provide support to pupils who are absent from school because of illness for a period of less than 15 school days, whether consecutive or cumulative, by liaising with the pupil's parents to arrange schoolwork, as soon as the pupil is able to cope with it, or part-time education at school. The school will give due consideration to which aspects of the curriculum are prioritised in consultation with the pupil, their parents and relevant members of staff.

For periods of absence that are expected to last for 15 or more school days, either in one absence or over the course of a school year, the named member of staff with responsibility for pupils with additional health needs will notify the LA, who will take responsibility for the pupil and their education.

Where absences are anticipated or known in advance, the school will liaise with the LA to enable education provision to be provided from the start of the pupil's absence.

For hospital admissions, the appointed named member of staff will liaise with the LA regarding the programme that should be followed while the pupil is in hospital.

The LA will set up a personal education plan (PEP) for the pupil which will allow the school, the LA and the provider of the pupil's education to work together.

The school will monitor pupil attendance and mark registers to ensure it is clear whether a pupil is, or should be, receiving education other than at school.

The school will only remove a pupil who is unable to attend school because of additional health needs from the school roll where:

- The pupil has been certified by the school's medical officer as unlikely to be in a fit state of health to attend school, before ceasing to be of compulsory school age; and

- Neither the pupil nor their parent has indicated to the school the intention to continue to attend the school, after ceasing to be of compulsory school age.

A pupil unable to attend school because of their health needs will not be removed from the school register without parental consent and certification from the school's medical officer, even if the LA has become responsible for the pupil's education.

6. Support for pupils

Where a pupil has a complex or long-term health issue, the school will discuss the pupil's needs and how these may be best met with the LA, relevant medical professionals, parents and, where appropriate, the pupil.

The LA expects the school to support pupils with additional health needs to attend full-time education wherever possible, or for the school to make reasonable adjustments to pupils' programmes of study where medical evidence supports the need for those adjustments.

The school will make reasonable adjustments under pupils' IHPs, in accordance with the Supporting Pupils with Medical Conditions Policy.

Pupils admitted to hospital will receive education as determined appropriate by the medical professionals and hospital tuition team at the hospital concerned.

During a period of absence, the school will work with the provider of the pupil's education to establish and maintain regular communication and effective outcomes.

Whilst a pupil is away from school, the school will work with the LA to ensure the pupil can successfully remain in touch with their school using the following methods:

- Emails
- Class Dojo

Where appropriate, the school will provide the pupil's education provider with relevant information, curriculum materials and resources.

To help ensure a pupil with additional health needs is able to attend school following an extended period of absence, the following adaptations will be considered:

- A personalised or part-time timetable, drafted in consultation with the named staff member
- Access to additional support in school
- Online access to the curriculum from home
- Movement of lessons to more accessible rooms
- Places to rest at school
- Special exam arrangements to manage anxiety or fatigue

7. Reintegration

When a pupil is considered well enough to return to school, the school will develop a tailored reintegration plan in collaboration with the LA.

The school will work with the LA when reintegration into school is anticipated to plan for consistent provision during and after the period of education outside school.

As far as possible, the pupil will be able to access the curriculum and materials that they would have used in school.

If appropriate, the school nurse will be involved in the development of the pupil's reintegration plan and informed of the timeline of the plan by the appointed named member of staff, to ensure they can prepare to offer any appropriate support to the pupil.

The school will consider whether any reasonable adjustments need to be made to provide suitable access to the school and the curriculum for the pupil.

For longer absences, the reintegration plan will be developed near to the pupil's likely date of return, to avoid putting unnecessary pressure on an ill pupil or their parents in the early stages of their absence.

The school is aware that some pupils will need gradual reintegration over a long period of time and will always consult with the pupil, their parents and key staff about concerns, medical issues, timing and the preferred pace of return.

The reintegration plan will include:

- The date for planned reintegration, once known.
- Details of regular meetings to discuss reintegration.
- Details of the named member of staff who has responsibility for the pupil.
- Clearly stated responsibilities and the rights of all those involved.
- Details of social contacts, including the involvement of peers and mentors during the transition period.
- A programme of small goals leading up to reintegration.
- Follow-up procedures.

The school will ensure a welcoming environment is developed and encourage pupils and staff to be positive and proactive during the reintegration period.

Following reintegration, the school will support the LA in seeking feedback from the pupil regarding the effectiveness of the process.

8. Information sharing

It is essential that all information about pupils with additional health needs is kept up-to-date.

To protect confidentiality, all information-sharing techniques, e.g. staff noticeboards, will be agreed with the pupil and their parent in advance of being used, in accordance with the Pupil Confidentiality Policy.

All teachers, TAs, supply and support staff will be provided with access to relevant information, including high-risk health needs, first aiders and emergency procedures.

Parents will be made aware of their own rights and responsibilities regarding confidentiality and information sharing. To help achieve this, the school will:

- Ensure this policy and other relevant policies are easily available and accessible.
- Provide the pupil and their parents with a copy of the policy on information sharing.
- Ask parents to sign a consent form which clearly details the organisations and individuals that their child's health information will be shared with and which methods of sharing will be used.
- Consider how friendship groups and peers may be able to assist pupils with additional health needs.

When a pupil is discharged from hospital or is returning from other education provision, the school will ensure the appropriate information is received to allow for a smooth return to the school. The named member of staff will liaise with the hospital or other tuition service as appropriate.

9. Record keeping

In accordance with the Supporting Pupils with Medical Conditions Policy, written records will be kept of all medicines administered to pupils.

Proper record keeping will protect both staff and pupils and provide evidence that agreed procedures have been followed.

All records will be maintained in line with the Records Management Policy.

10. Training

Healthcare professionals will be involved in identifying and agreeing with the school the type and level of training required. Training will be sufficient to ensure staff are confident in their ability to support pupils with additional health needs.

Staff will be trained in a timely manner to assist with a pupil's return to school.

Once a pupil's return date has been confirmed, staff will be provided with relevant training one week before the pupil's anticipated return.

Parents of pupils with additional health needs may provide specific advice but will not be the sole trainer of staff.

11. Examinations and assessments

The named member of staff will liaise with the alternative provision provider over planning and examination course requirements where appropriate.

Relevant assessment information will be provided to the alternative provision provider if required.

Awarding bodies may make special arrangements for pupils with permanent or long-term disabilities and learning difficulties, or temporary disabilities and illnesses. Applications for such arrangements will be submitted by the school, or LA if more appropriate, as early as possible.

12. Monitoring and review

This policy will be reviewed by the governing board.

Any changes to the policy will be clearly communicated to all members of staff involved in supporting pupils with additional health needs, and to parents and pupils themselves.

The next scheduled review date for this policy is April 2025.
